

## THE HOUSING AUTHORITY OF THE CITY OF FORT MYERS, FLORIDA SCHEDULE OF COST OF REPAIRS AND REPLACEMENTS

The objective of the Housing Authority of the City of Fort Myers (HACFM) is to provide decent, safe, and sanitary housing at an economical cost. To this end, it is of the utmost importance that we obtain maximum useful life of all components of a Public Housing Development. With today's high cost of both labor and material versus limited operating funds, repairs that are due to anything other than normal wear and tear will be charged to the resident for replacement and labor, or repair and labor.

The attached list of replacement and repair charges reflects the most current component cost at the Housing Authority's procurement price. Please note that the actual cost may vary depending upon the development's, it is impossible to list all items here. For items not listed here, contact the Manager's Office. Except where noted, the labor charge is standard \$ 25.00 per hour or part thereof.

The following charges listed are for **damage directly attributed to resident misuse or that of their guest (s).** The financial burden of restoring mistreated property to its as was' condition must be borne by the one causing the damage. These charges are in no manner an act of punishment. This schedule will not be used to replace "fair wear and tear" items that are the responsibility of the Housing Authority.

### **RESIDENT DAMAGE IS BEST DEFINED AS:**

- a) Deliberate and/or malicious damage to include breakage and stoppage.
- b) Damage directly caused by improper usage of components.
- c) Damage caused by improper sanitary practices.

**NOTE: Labor charges of \$ 25.00 per hour, per man will be levied on all items marked "+ LABOR". This is in addition to charges shown for replacement items. This LABOR Charge is for labor expended during our standard workweek, defined as 8:00 a.m. to 5:00 p.m., Monday through Friday. Labor incurred during overtime hours will be billed at the time and ½ rate of \$ 37.50 per hour.**

Reimbursable charges as shown are cost for supplies or services replaced or performed beyond the normal maintenance function's responsibility.
